

HandCrafted in the USA

T-60®

This is the guitar they said couldn't be built. The rest is history. You've heard it for years. You know its reliability and versatility is legendary. The down-home good looks and proven reputation make the T-60 a masterpiece of the instrument builder's art.

Features:

25½" scale. 21 frets. Rosewood or Maple fingerboard. Two blade-type humbucking pickups. Two volume controls. Two tone controls (with coil tap circuit). Heavy die-cast chrome hardware. Three-position pickup selector switch. Two position phase switch. Premium die-cast tuners.

T-40®

As a bassist, you know that many good basses are lacking in tonal variety. You've noticed some basses have less than ideal hardware. If you're ready for something better, you're ready for the T-40. The proven track record of the T-40 will convince you. Choose a color. Decide on either a Rosewood or Maple fingerboard. And buy with confidence that you've chosen a winner. The T-40 bass.

Features:

34" scale. 20 frets. Rosewood or Maple fingerboard. Two blade-type humbucking pickups. Two volume controls. Two tone controls (with coil tap circuit). Die-cast chrome hardware. Three-position pickup selector switch. Two position phase switch. Premium tuners. The T-40 is also available in a special fretless model.
